## Live Tableau

#### What is a tableau?

- A group of models or motionless figures representing a scene, historic event, or academic concept.

### What is the aim of session?

 Refresh you with the wide range of concepts considered in the module; offer a practical means to ground and apply abstract ideas; and an outlet to think critically and reflexively about the relationship between environmental science and policy;

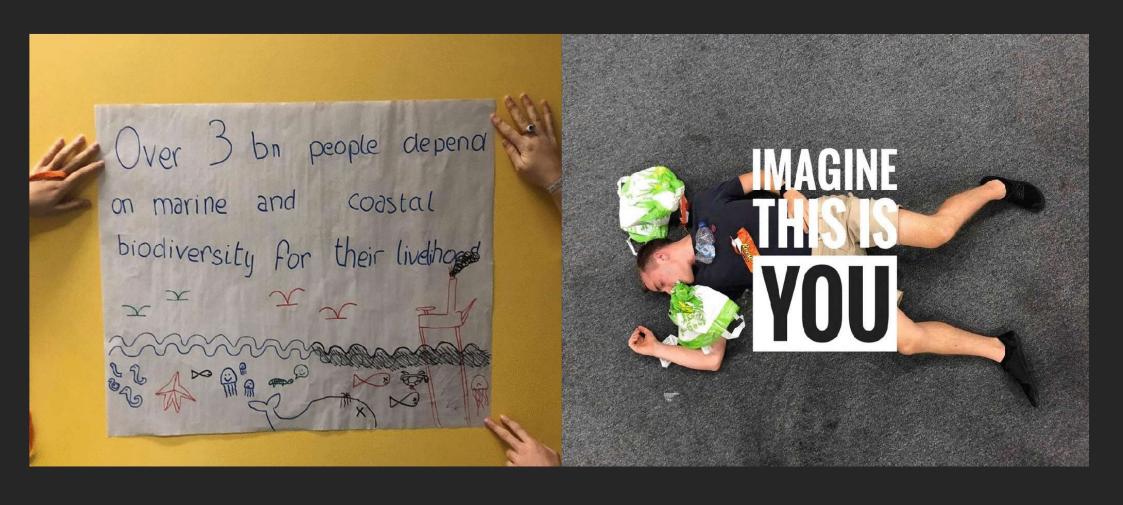

### What are the learning outcomes?

- L1: A deeper, more practical, and visual engagement with key concepts from across the module;
- L2: Refine effective communication skills and teamwork;
- L3: Develop critical and reflexive thinking;

### Sustainable Development Goal: Zero Hunger

### Sustainable Development Goal: Marine Pollution

Computer says "no"! One device won't speak to another

## Environmental Science and Policymaking

# Concepts

1. Linear Model

2. Co-Production

3. Open Access

4. Advocacy

5. Multiple Streams
Theory

6. Data Friction

7. Civic Epistemologies

8. Evidence-Based Policymaking

9. Democratizing Expertise

### **Key question:**

How can your chosen concept help us better understand the relationship between environmental science and policy?

### **Simple Rules:**

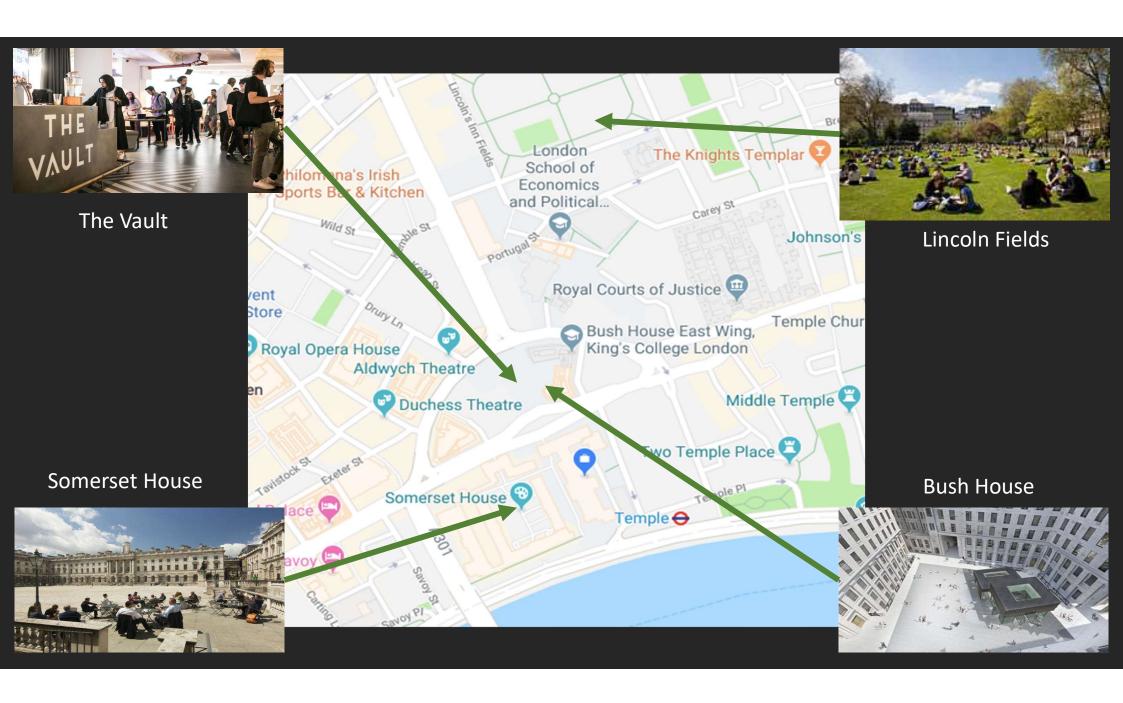

- Nominate a leader, photographer, researchers, and note-taker. Make sure the roles are spread out evenly within your group.
- Use the coin to break any deadlocked decisions.
- Pick a maximum of three items to help you with your tableau.
- Photographs must be taken in landscape. Turn your phone lengthwise so that you are holding it with both hands.

### **Keats:**

There are two files on the module page under the tab "Putting science and policy in their place" in a folder called "Live Tableau" to help get you started.

Photographs must be taken in LANDSCAPE!!!

### **Structure**

- 1. Assemble in small groups, within your seminar classes, and pick your concept from one of four options;
- 2. Use your 'making concepts visual' kit and materials produce a poster distilling the key details of your concept;
  - --- DESIGNATED ROOMS: CAMILLA'S GROUPS 1.09 AND 1.11 BHSE; GEORGE'S GROUPS 2.07 AND 2.08 BHSE; ROXANA'S GROUPS 2.09 BHSE ---
- Photograph both your poster and tableau and turn them into a GIF;
  - --- BACK IN THE LECTURE ROOM, 2.09 BHSE, BY 13.30PM LATEST ---
- 4. Speed-round of presentation (1min per group);
- 5. Vote and prize-giving!
